**Subject:** AES - Status Update

ORD, at our request, has provided a revised draft data report incorporating our edits and requested modifications. However, ORD does not want the report released before its internal QA/QC, peer, and administrative review is completed, which it says will take one month on an expedited basis.

George Meyer has spoken with Sylvia Lowrance (former AA for OSWER and consultant to AES), who says that she will not set up the meeting until she receives the data.

Also, as requested, we have provided photographs of the deposition of Agremax in a dry river bed to Jose Font,
